TRAINING

2013 – 2018 (In progress)	Studying engineering at ESIEA – a top French engineering school specialized in Information Systems and Embedded Systems offering a five-year degree comparable to a Master of Science.
2013	Baccalauréat S – A levels certificate in Maths, Physics and Chemistry with double mathematics.

WORK EXPERIENCE

July – August 2016 (2 months)	International experience in Canada during last summer. Worked in a summer camp organized by a church and their sisters. During those two month my tasks were to look after the kids and play with them.
June – July 2015 (1 month)	Technical internship during the summer following my second year at ESIEA. Worked at Leroy Merlin (DIY Store). My tasks were to open and sort the boxes then classify the orders according to the alphabetic order.

PROJECTS

2016 - 2017	During the fourth year we chose to realize the Spider Project. The purpose of this project is to put a net (made with electronic component) around the football shoes of the player and to show his personal statistics after the game in an android application (made in Java).
2015 - 2016	During the third year we chose to make an android application named Wait A Minute. The purpose of this project was to guide people once they are out of their homes.
2014 - 2015	During the second year we made a small rocket with plenty of electronic components and an electronic box to open the hatch.

LANGUAGES AND COMPUTER SKILLS

Tamil	Mother Tongue
French	Bilingual
English	Fluent (TOEIC score of 930)
Computer skills	Microsoft Office, C, Java, LaTeX, HTML/CSS, PHP/MySQL Create and manage a database Make an android application (Android Studio) Operating Systems: Linux and Windows

HOBBIES

Sports	Cricket, Football and Jogging
Trips	Canada, England, India and Sri Lanka
